Amalgamated Association Claims that
Organizing Men at Carnegie Union
Mills is Successful Beyond Expectations—Canal Dover Mills Ordered
Started Monday as Non-Union.

Canal Dover, O., Aug. 9.—The American Sheet Steel Company has ordered the sheet mills of this city to start on next Monday morning as non-union. The local Amalgamated Association decided to station pickets at the most favorable points to watch the mills and prevent if possible, non-union men from taking their places. Their utmost endeavors will be used to avoid violence.

Pittsburg, Aug. 9.—The conference between the officials of the Amalgamated Association and President Gompers and Secretary Morrison of the Federation of Labor, was resumed this morning. The officials of the Federation were first to reach the Amalgamated headquarters, arriving shortly after 10 o'clock. They were received by Secretary Williams of the Amalgamated.

The officials of the Amalgamated are confident of success of the great strike to be promulgated tomorrow. Not a hitch in the plans of President Shaffer and his aides has yet occurred. It was hinted at headquarters this morning that the plan to organize the men of the Carnegie company's union mills was successful beyond the hopes of the organizers. The chances of tying up these plants tomorrow are considered excellent. Reports from the trust mills in Ohio, Indiana and Illinois are equally encouraging. Every union plant affected by the greater strike order will close with the last blast of the whistle tomorrow evening according to the predictions of the Amalgamated officials.

Vice President David Reese of the Amalgamated Association says the attempts to start the local trust mills so far have been failures.

"The bluff failed as we knew it would," he said this morning. "They cannot start the Painter mill. All the men who might have gone in there have been seen and I know they can't make a start. The Lindsay and McCutcheon mill was not started yesterday and it can't be started tomorrow or next week. The Clark mill, which is supposed to be in operation, is not doing much more than burning coal. We have not lost a foot of ground since the strike began, but rather gained where we did not expect."

Mr. Gompers again refused to talk when questioned at headquarters by the newspaper men present. He said he could give out nothing until the conclusion of his conference with President Shaffer. Then he would tell all there was to tell.

Shaffer Addressed 2000 Mill Men.
Pittsburg, Pa., Aug. 9.—No attempt was made by the American Steel Hoop Company to start the Painter Mill last night. The furnace indicated that nothing will be done today.

President Shaffer of the Amalgamated Association addressed 2000 mill men in the Lawrenceville district on Thursday night. "He said: 'A man 20 years ago that had only a few rolling mills, has since been building libraries and placing organs in churches. If I was a preacher I am afraid I could get no inspiration from those organs, whose burden is 'Homestead.'"

The attempt to start the Lindsay McCutcheon mills in lower Allegheny, with non-union men, seems to have panned out a partial failure. After working three-fourths of a turn, the one mill knocked off and the two men and ten boys at work were sent home. Manager Baugh said he would start another mill today.

Help From Labor Council.
Buffalo, N. Y., Aug. 9.—Business Agent John Cohen of the United Trades and Labor Council at the close of the meeting of that organization last night said: "The sense of the meeting was that if it comes to an issue, we will render the steel workers all the assistance in our power. She will preside over the jewelers' feast and will wear jewels and precious stones valued at \$400,000. This is not the first time Mrs. Cox has attracted public attention. Several years ago when the bicycle fever was at its height, she was the organizer of a church in the village of Mason, Ohio. One Sunday she caused a sensation in the church by appearing in a bloomer costume of a very warm shade of red. A general church row was the result. There were charges and counter-charges and at last the name of the pastor, Rev. J. W. Shorten and a female member of the congregation were connected with a scandal which caused him and the woman to elope to Philadelphia. The handsome young woman who caused the sensation married later, and now she is to be queen of the industrial parade.

GLAD

IS MISS BEALS TO GET OUT OF
LAWTON.

DRINKING, ROBBING AND KILLING
Seems to be the Program in the New
Wild Section—Miss Mattie Arrives
in Wichita and Talks of Her Experience Down in Oklahoma Territory.
The Land Lottery.

Wichita, Kan., Aug. 9.—Miss Mattie Beals, the Wichita young woman who drove a farm near Lawton, O. T., in the government land allotment, came home last night with nothing but warm criticism for her fellow townsmen. She was marshal of the new town of Lawton for one day, and says that was long enough.

Miss Beals said: "I have taken my farm in fairly good position. Since Wood has commenced to lay out his plans in town Lawton, I think I will be able to get \$25,000 for it and may be more."

"When I arrived at Lawton it was very wild. 'But' Carr, the marshal, was running things worse than no officer at all. I ran Carr out of town all right. I just walked up to him and said: 'If you don't leave I'll shoot you dead.' He got scared, but my nerves were shattered, and after running in several lurches, I resigned."

"I am mighty glad to get out of Lawton. Such shooting, drinking, robbing, and killing—you never saw the like. It makes me shudder. I was greatly surprised when Wood took advantage of me by choosing the best land when he might just as well have given me part of it. He and I did have some talk about starting a town like on our farms; but he did not know then, I guess, that he had everything his own way. Now I would not go into partnership with him under any circumstances."

Proposed Quo Warranto.

Washington, Aug. 9.—The intention of certain labor organizations to institute quo-warranto proceedings against Attorney General Knox, alleging that he has not done his duty in failing to take steps under the anti-trust act against the United States Steel Corporation, is not taken seriously at the department of justice. Attorney General Knox is absent in New York, but others connected with the department talked freely on the matter today. In the first place they say quo-warranto proceedings will not hold because by quo-warranto it might be determined by what right a thing is done, but never why a thing is not done.

BALL TEAM

Will Soon Have New Uniforms—Boys
Need Lift in Getting Started.
Games Scheduled.

The Newark base ball club under the management of Charles Perry, and the captaincy of short-stop William Perry is rapidly developing into a crack amateur organization.

New uniforms have been ordered and will be here next week. The money for the new uniforms has been raised by subscription but enough has not yet been collected to defray the expense, and more is needed.

A good ball team is a great advertisement to a city, and those interested in Newark's welfare should contribute money to put the team on its feet immediately.

The team will play a game from Cochranton 11:15 to 1:30 p.m. on Thursday afternoon at Philadelphia Park, and will play the same team here on next Friday.

They go to Belleville for two games August 22 and 23, and play the Pataskalo here on the 17th.

The team has some good players and deserves encouragement. Give the boys a lift.

Careful Prescription Work

Have you ever thought what that means?

Suppose your tailor would make a suit from shoddy cloth. The clothes wouldn't hang or wear well, even though cut correctly. So in prescriptions good service means more than being careful about weights and measures. It means carefulness long before your prescription is brought to us. It means that we have been careful as to purity when buying chemicals, and have exercised care in making all those liquid medicines which we keep ready for use on our shelves and in our closets. We are careful in every step of prescription work.

I HAVE A TOOTH

It's been troubling you this long while. Perhaps it's partly decayed. A slight cold starts it aching furiously. The tooth next to it may be becoming decayed because of its decaying neighbor. The best thing for you to do is to let me examine your teeth. If they need filling I will tell you so. If it be best to extract or if a cap will save the tooth I will tell you that. Whatever your teeth need I will do it for you—do it painlessly! too. This is something I guarantee.

STENOGRAPHER COOPER.

In an article on the recent Helber-Rosche trial at Coshorton the Bulletin of that place says of Stenographer C. C. Cooper of this city:

As fast as witnesses or the attorneys talked their words went down on the sheets over which a pen sped its way in swiftest flight guided by the hand of Charles C. Cooper, the court stenographer of Licking county. At every call from the court or counsel for a record of testimony the words were at once faithfully repeated. In the two weeks his pen traveled a tremendous distance. A huge pile of sheets rose higher and higher, and when it was all over the testimony transcribed from the shorthand notes into typewritten manuscripts meant two thousand pages.

County Fair.

J. M. Farmer, secretary of the Licking County Agricultural Society, and who is ever wide awake in the interest of the society and its fairs, says that every indication points to the largest and most successful fair this year that has ever been held by the society. This will certainly be good news to the friends of the society and the fair throughout the county.
